

Hoisting Grip for Coaxial Cable and Elliptical Waveguide, Lace-Up

The hoisting grip consists of a wire mesh with 2 hoisting eyes, lace up version. Multiple use version covering several sizes.

FEATURES / BENEFITS

Antenna Transmission Line Installation

- ➔ Hoisting stockings distribute the force during installation
- ➔ It holds the antenna transmission line by means of friction over their complete length
- ➔ The closed version (C-Type) is used when top connector is installed after the antenna transmission line is hoisted
- ➔ The open version (L-Type) is used where the top connector is installed prior to the hoisting

Technical Features

STRUCTURE

Product Line	Coaxial Cable Accessories, Elliptical Waveguide Accessories
Product Type	Hoisting Grip
Transmission Line Type	HCA295, E38, EP38
Coaxial Cable Type	Air Dielectric, Foam Dielectric
Configuration	2 loops attachment
Style	Lace-Up
